

**Save Money on Electricity at no risk or cost
AND the Borough of Seaside Park will earn \$2.00+ for every
meter that is enrolled!**

(Residual Amount varies based on usage)

The Facts:

You can save money at no cost or risk **AND support a greener environment.**

It's **FREE** to switch to **Viridian GREEN Energy** in less than 5 minutes.

Viridian offers an affordable rate plan with no hidden taxes, fees or rates.

You still receive the same single bill from your utility. The switch is completely transparent to you only you're paying a lot less.

Your reliability and emergency repair remain the responsibility of your utility company and are 100% unaffected.

On average switching just your home to Viridian Energy in 1 year is equivalent to planting 60 trees or not driving 1100 miles. This claim is audited annually by the DPUC (Department of Public Utilities). (Please refer to the sustainability report unless you are able to provide the validity of this statement.)

NJ utilities are 7% green.

How to Switch

To make the switch all you'll need is a copy of your electric bill and 5 minutes.

Click on our website: www.viridian.com/seasideparknj

Click on the "Become a Customer" and enter your information to start saving today. In just minutes, you'll be saving money every month (Viridian doesn't guarantee savings) AND supporting a greener environment at the same time. Since deregulation in 1999 it's your RIGHT to choose an energy provider! Feel free to call the Borough office, (732) 793-3700, with any questions or comments.

* Monthly savings apply to the generation charge (generation, transmission, and all applicable taxes) on your electric bill.
