

Construction of upgrades and improvements to the **Borough of Seaside Park, RECONSTRUCTION OF PARKING LOTS 1, 2, & 3** in the amount of **\$2,800,000** was financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will involve full depth reconstruction of parking lots 1, 2, and 3, including ADA ramp improvements, curbing and sidewalk improvements, re-striping of parking lots to improve circulation, landscape improvements and design of low impact drainage best management practices in the Borough of Seaside Park.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
