### Seaside Park Boardwalk to be closed

Effective immediately, by order of the Seaside Park Office of Emergency Management the boardwalk will be closed to the public until further notice. The Beach entrances will remain accessible to the public while the boardwalk is closed. This closure is to further protect borough employees and the public during Governor Murphy's executive order to limit non-essential travel. We appreciate everyone's cooperation as we try to limit exposure during the Covid-19 pandemic so we can flatten the curve and get through this situation together as a community.
